

ClimBEco Winter Meeting 2019

KONFERENSCENTRUM WALLENBERG, GOTHENBURG | 26-27 FEBRUARY

PROGRAM

In this meeting, your research projects are in focus, but we will start day 1 by listening to Professor Annica Kronsell who will share thoughts about the analytical distinction between critical and problem-solving research. You will then all give short oral presentations and get direct technical feedback as well as the chance to discuss your research with your peers. For the rest of the meeting, you will take on the problem-solving glasses and explore your research topics from the perspective of the Global Sustainable Development goals. To sum up at the end of day 2, you will then share with the rest of us how you could possibly change your presentation from day 1 if you were to include new insights from the meeting SDG workshops.

Tuesday 26 February

26 February:

12.00-13.00	Lunch
13.00-13.15	Introduction
